

Jan. 22, 1968

Dear Robert,

In response to a question about my theory of sets courses which you asked in your recent telephone call, perhaps my enclosed paper

IDENTIFYING AND NURTURING MATHEMATICAL TALENT

may be helpful to you.

I agree with the recommendation of Dr. Smith about Dr. Caldwell. My plan is to retire at the end of the 1986-87 academic year and Dr. Smith may retire soon afterward. Our college will need the young faculty members we have lost during the last several years.

Sincerely,
Clarence F. Stephens
