Prof. Clarence Stephens,
Genesco

Dear Prof. Stephens,

First I would like to thank you for writing to Ed Cogan so helpfully about our summer institute program. He was a very successful staff member, and will be back with us next summer unless he gets a sabbatical worked out to conflict.

My principal reason for writing is to renew an earlier offer made by Lloyd Williams, I think. In the opinion of my colleagues you are the most successful "outsider" we have had, and we would like to have you back next summer. As you probably know, I am not in a position to make a firm offer until about December. But, assuming that we will have an institute, we would very much like to have you on the staff.

I am relying on your familiarity with our program, but of course would be glad to answer any questions you may have. It seems fair to warn you that we would probably consider you enough of a regular staff member to justify asking you to help with the supervision of seminar papers (required for the M.A.T. degree).

Yours,

Burrowes Hunt

Burrowes Hunt
Prof. of Math.

Lloyd is off on sabbatical, as is John Leadley.
